

Driving Readiness, Technology and Opportunity

Event Guide

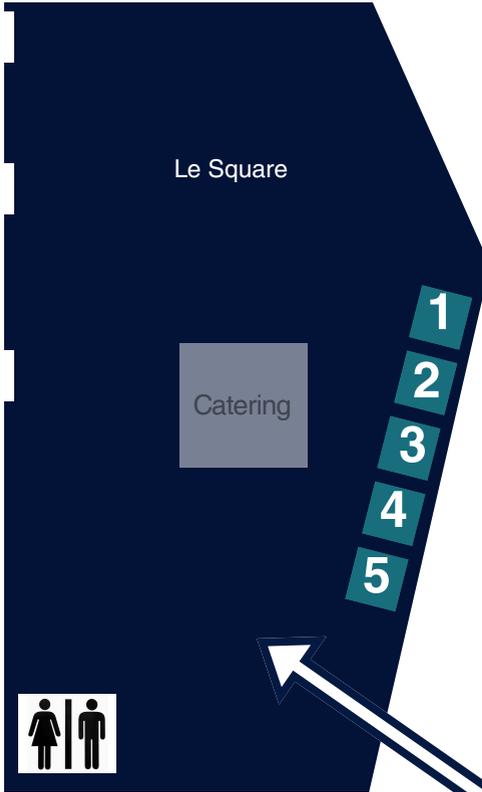

Wednesday 4 February 2026
Lille Grand Palais, Lille

www.eubatterypassportconference.com

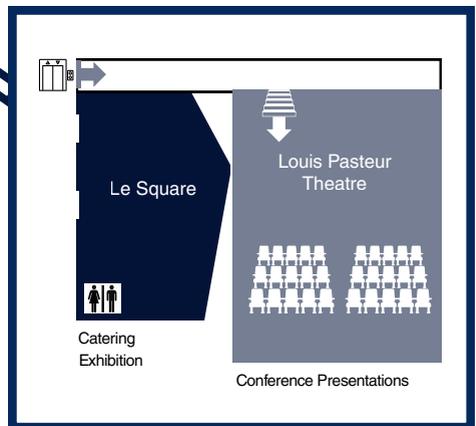

FLOOR PLAN

Level 3 - Grand Palais, Lille

- 1 - AVL ANALYTICAL TECH**
- 2 - CIRCULOR**
- 3 - DIGIPROD PASS**
- 4 - KURZ DIGITAL**
- 5 - SPHERITY**

Welcome to the EU Battery Passport Conference.

Today brings together industry leaders, innovators, regulators, and supply-chain experts for a focused day of insight, discussion, and practical learning around one of the most important developments in the European battery sector.

As the Battery Passport moves from concept to reality, this conference is designed to provide clarity, share real-world experience, and encourage meaningful collaboration across the battery value chain.

We're delighted to have you with us and look forward to a productive and engaging day of conversation, connection, and forward-thinking ideas.

Ken Davies

2030 Net Zero Ltd

Sponsors and Exhibitors

08:30 – 09:00 | Registration & Networking Breakfast - Le Square

09:00 – 09:15 | Opening Remarks

Host: Ken Davies, Producer, Battery Technology Podcast

"The Next Industrial Compliance Revolution: Why the Battery Passport Matters"

09:15 - 09:45 | Keynote 1 | International Lithium Association

Tom Drabble, Global Sustainability Manager

"The Battery Passport - Heralding a new dawn of traceability and sustainability"

09:45 - 10.15 | Keynote 2 | PowerCo SE

Alissija Puzankova, Business Lead for the Battery Passport, Sascha Hoffmann, IT Lead for Battery Passport.

Case Study: *"PowerCo: Lessons learned and latest implementation results in digital battery passports and connectivity infrastructure."*

10.15 - 10.35 | Solution Focus 1 | Circulor

"The EU Battery Passport in Practice: What Full-Scale Implementation Really Takes"

10:35 - 11:15 | Networking Coffee Break & Exhibition | Le Square

11:15 – 11.45 | Keynote 3 | 4theRecord

Regulation, Preparation and Opportunity | Suzanne Guth-Orlowski

"The Trust Layer of Battery Passports: The UN Transparency Protocol (UNTP) and Digital Identity Wallets Explained"

11.45 – 12.10 | Keynote 4 | McKinsey

Johan Bracht

"An Overview of Challenges and Opportunities for OEMS and Cell manufacturers in the implementation of the Battery Passport."

12.10 – 12.30 | Solution Focus 2 | Kurz Digital

"Architecting for Ambiguity: Building a Battery Passport Infrastructure"

12.30 – 13:00 | Keynote 5 | TUV SUD

Benjamin Sommer

"Battery Passport Implementation, Challenges from a Regulatory Perspective"

13.00 – 13:45 | Networking Lunch & Exhibition | Le Square

13:45 – 14:15 | Panel 1 | The EU Battery Passport : Challenges & Opportunities

- Daniela Sanchez-Lopez, Nyobolt
- Iliia Gasparishvili, Honeywell
- Dr Carsten Stocker, Spherity
- Benjamin Sommer, TUV SUD

14:15 – 14:35 | Solution Focus 3 | Spherity

"Beyond the Pilot: What we learnt deploying Battery Passports in Production"

14:35 – 15:05 | Panel 2 | The Future of Battery Transparency: How Digital Product Passports Will Reshape the Entire Value Chain"

- Sohag Salauddin, Managing Director, DigiProd Pass Ltd (moderator)
- Dr Fahim Chowdhury, CEO, Technovative Solutions Ltd
- Ingrid Flatebø Holsen, Battery Passport Project Lead, Corvus Energy
- Farhadur Arifin, Lead Researcher, BASE Project (EU), Technovative Solutions Ltd

15.05 – 15:30 | Coffee, Networking & Exhibition | Le Square

15:30– 15:50 | Solution Focus 4 | AVL Analytical Technologies

"Battery Passport – Data Integration for End-to-End Traceability."

15:50 – 16:20 | Closing Panel | Further Evolution in the Battery Passport - How the Battery Passport is likely to evolve from 2027

- Dr Susanne Guth-Orlowski, 4TheRecord
- Tom Drabble, International Lithium Association
- Alissija Puzankova, Powerco
- Yue Jin Tay, Circulor

16:20 – 16:40 | Solution Focus 5 | Honeywell

"Battery Passport is not an app: Recycling Is Where the System Is Stress-Tested"

16:40 – 16:55 | Closing Address

Host: Ken Davies, Producer, Battery Technology Podcast

"Turning Regulation into Innovation and Opportunity"

17.00 – 18.30 | International Drinks Reception | Le Square

www.circular.com

Circular is a UK-based technology company founded in 2017 and the global leader in Digital Product Passports, Battery Passports, and enterprise Trust & Assurance solutions. Its SaaS solution enables supply chain traceability and Digital Product Passport solutions to help businesses track materials, support responsible sourcing, and meet sustainability and regulatory requirements.

Its platform enables end-to-end visibility of complex supply chains and is used by leading organisations to manage product-level data, demonstrate compliance, and support circular economy objectives.

www.digiprodpass.com

DigiProd Pass Ltd is at the forefront of enabling supply-chain transparency and circularity across battery, automotive, textile, and consumer-goods sectors. Our blockchain-powered Digital Product Passport platform aggregates detailed lifecycle data — from raw-material origin and carbon footprint through manufacturing, performance tracking, and end-of-life recyclability. Fully aligned with the forthcoming EU Batteries Regulation and the broader Ecodesign for Sustainable Products Regulation,

DigiProd Pass supports manufacturers, OEMs, recyclers and regulators in meeting compliance, enhancing sustainability, and ensuring traceability. As a strategic partner of the conference, we bring real-world solutions to the emerging battery-passport mandate — helping transform regulatory challenge into competitive advantage.

www.avl.com

The AVL Digital Battery Passport combines a secure data platform with our extensive knowledge in legislation and CO2 engineering. It is designed to facilitate seamless data sharing throughout the entire battery value chain, ensuring efficient integration, tracking, analysis, and reporting of relevant battery data at every stage of its lifecycle.

www.spherity.com

Spherity, a global pioneer in digital identity software, revolutionises secure identity integration for enterprises, machines, products, data, and algorithms.

Leveraging self-sovereign identity (SSI), Spherity streamlines compliance with data protection and security regulations. The company offers automated solutions for various supply chain managements, from finance and automotive, to textiles and pharmaceutical.

The solutions include perpetual KYC and KYS compliance, an eIDAS 2.0-compliant EU Business Wallet, the Digital Product Passport solution mandated by the European Commission, and master data management for the U.S. pharmaceutical supply chain.

www.kurzdigital.com

KURZ Digital is the digital incubator of the KURZ Group. We develop and implement ideas for the technological transformation of our company group and for the industrial sector. We drive tech-led innovation in processes, products, and services.

Our Battery Passport is tailored specifically to the needs of the battery industry. It provides a scalable, EU-compliant, end-to-end solution. It generates a QR-accessible digital twin containing essential information such as origin, composition, performance, CO₂ footprint, and recyclability.

With our full service packages, we are your competent and experienced partner for all your Battery Passport needs
